Work Experience

Web Developer Intern – Kyrex Digitech Pvt. Ltd, Noida

Feb 2026 – Jul 2026 (6 months)

- Developed and maintained **responsive, scalable** web application features using **Next.js, React, JavaScript, TypeScript**, and **WordPress**, focusing on reusable components, modern UI development, responsive design, and **cross-browser compatibility**.
- Collaborated with cross-functional team members using **Git, GitHub**, branching strategies, commits, pull requests, **code reviews**, and **Jira** for Agile sprint planning, task management, issue tracking, and project collaboration.
- Assisted in building and integrating frontend components with backend **RESTful APIs**, ensuring smooth client-server communication, efficient data flow, API integration, and application functionality.
- Participated in team discussions, debugging sessions, bug fixing, feature implementation, testing, and performance optimization, improving problem-solving skills and understanding of real-world **Software Development Life Cycle (SDLC)** workflows.
- Gained practical experience in clean code practices, version control, feature development, deployment, collaborative software engineering, production environments, and modern web development best practices.

Projects

[DevMorph | AI Website Builder](#)

JAN 2026

Built an **AI-powered SaaS platform** that generates production-ready websites from natural language prompts with live preview and one-click deployment.

Features: Conversational AI editor, version rollback, full code export, credit-based monetization, admin payment panel.

Tech: React 19, Vite, Tailwind, Redux Toolkit, Node.js, Express, MongoDB, JWT (HttpOnly), Dual-LLM pipeline, Vercel, Render, Google Gemini.

[CodeForge | Full-Stack Coding Platform](#)

OCT 2025

Developed a **full-stack coding platform** for solving programming problems, submitting code, and tracking learning progress.

Features: AI chatbot for coding help, solution video integration, secure authentication, and admin dashboard for problem management.

Tech: React, Tailwind CSS, Redux Toolkit, Monaco Editor, Node.js, Express, MongoDB, Redis, JWT authentication.

Skills

Languages: JavaScript, TypeScript

Frontend Development: React.js, Next.js, Redux Toolkit, Tailwind CSS

Backend Development: Node.js, Express.js, RESTful API Design, Authentication & Authorization (JWT), Middleware Architecture

Databases & Caching: MongoDB, PostgreSQL, Redis

System Design & Core Concepts: OOP, Data Structures & Algorithms (Basic), System Design Fundamentals (Scalability, API Design, Caching Strategies, Load Handling Basics)

DevOps & Tools: Git, GitHub, Vercel, Render, Postman, CI/CD Basics (GitHub Actions – Basic Understanding), Jira

AI / ML Integration: LLM API Integration, Prompt Engineering, AI-powered Application Development, Building AI-assisted Features in Web Apps

Education

Bachelor of Computer Applications (BCA)

Amrapali University (Aug 2023 - Jun 2026)
